

Bowker Creek greenspace

Saanich News Apr 20
2007

The Shelbourne local area plan now includes a proposed greenway spanning a section of Bowker creek.

The change was approved at a public hearing in Saanich on April 17.

The land is not park land. However, people buying or developing land near the creek will now know up front that the preferred use of the space is for it to be used as greenspace in order to protect the Bowker Creek waterway.
